JFK assassination records appeals Harold Weisberg 8/20/79
Unjustifiable withholdings on historical case
Violation 5/5/77 FOIA policy
And who is a public person?

Attached ~~is~~ is 62-109060-6070. I do not recall seeing the underlying record in those provided from New Orleans. I'm inclined to believe I'd not have overlooked any records of the indicated content.

While I do not pretend to be able to read through the obliterations one person who fits the story is an Englishman named Tom Bethell.

If this is the case then the FBI had to know all of that was within the public domain.

Bethell took Garrison's so-called case against Clay Shaw to the Shaw defense. He was also charged for it but I don't recall that the case ever came to trial.

If Bethell is not the one then the historical significance of the withheld information is greater.
